Describe proposed new construction, addition, storage shed, deck/patio, tennis courts or demolition:

Job Address: _______________________________________________________________________

Owner: _________________________________________ Phone #: __________________________

Architect: __________________________________________________________________________

General Contractor: __________________________________________________________________

Sewer & Plumbing___________________________ Electrical:_______________________________

Mechanical Contractor: __________________________ Low Voltage: _______________________

Note: A stone driveway must be installed to prevent tracking of mud in the street or a wash station must be installed.

Section #1444.06 (a) Effective Period of Permits: If, after a permit has been issued, the operation called for by it is not commenced within six months of the date thereof, such permit shall be void, and before such operation can commence, a new permit shall be taken out by the owner or by his or her agent or architect and fees as hereafter fixed for the original permit in Section 1446.01 shall be paid therefor.

Section #1446.11 – Commencement of Construction Prior to Permit Issuance Fee: The fee for any permit shall be twice the amount provided herein if the permit is applied for after the construction and/or other work for which a permit is required has commenced. Payment of such fee does not relieve contractor from other penalties provide in the Building and Housing Code.

Contractor signs are not permitted to be displayed within the City of Pepper Pike.

It is the responsibility of the permit holder to schedule all required inspections. Permit holder or owner/agent must be present at inspection site during inspection.

The acceptance of the permit herein applied for shall constitute an agreement on the part of the applicant to abide by all the conditions herein contained and to comply with all the ordinances of the City of Pepper Pike, and the laws of Ohio relating to the work to be done hereunder; and said agreement is a condition of said permit. It is a further condition of this permit that the Building Inspector of the City of Pepper Pike must be notified 48 hours before the completion of work requiring inspection by the Building Code of the City.

Prior to the site preparation for the construction of a new house and until grass is full-grown, a silt fence must be installed and maintained by the Builder. It is also the homeowner or contractor’s responsibility to keep public streets clear of mud and / or all other debris during this time. Failure to maintain silt fence or keep streets clear of debris will result in the City taking remedial action at the owners’ expense.

**Estimated start of Construction:**

- Contractor/Permittee should verify that the email address doNotReply@SwpppTrack.com is not blocked by any spam filter so the contractor/permittee receives all email notifications.
- A representative from Chagrin Valley Engineering, Ltd. (CVE) will be conducting oversite inspections at least once per month.
- When a SWPPP inspection is performed on the site, the Contractor will receive an email with a pdf of the inspection report attached. The report will detail any deficiencies that are found during the inspection.
- If there are deficiencies found during the inspection, the Contractor will receive an email the morning after the site inspection is conducted with a link to the SWPPP Tracker website to access all the deficiencies/work items. From this site the Contractor can view the items and indicate that the work item has been corrected. CVE will conduct an inspection to verify that the work item has been corrected and will remove the corrected item from the system. The Contractor will continue to receive this email every 72 hours until all work items are corrected.
- If there are deficiencies found during the inspection, the Contractor/Permittee will receive weekly status reports showing all open work items.
- The Permittee is required to perform their own inspections of all erosion and sediment control practices at least once every 7 days and within 24-hours after a rain event of at least 0.5” over a 24-hour period. The Contractor will receive an email when the site receives more than 0.5” of precipitation in a 24 hour period based on National Weather Service data. The Permittee is required to provide a copy of all these reports to the Community via Chagrin Valley Engineering, Ltd. at SWPPPTrackAdmin@cvelimited.com
