

City of Pepper Pike Container Drop-off Program Guidelines

DELIVERY AND COLLECTION OF THE CONTAINER:

Container Drop-off: Between 7:00 a.m. and 2:00 p.m.

Container Pick-up: Between 7:00 a.m. and 12:00 p.m.

The Service Department cannot schedule specific drop-off and pick-up times. It may be necessary to delay or reschedule delivery of the container due to unforeseen circumstances, such as weather conditions or mechanical issues with the truck. The container program is active each year from April until November or until the first snowfall.

The truck used to delivery the container needs 13 feet of clearance from any tree branches and wires hanging over the driveway.

NO CONTRACTORS!

This program is for Pepper Pike residents ONLY!! Contractors, including landscapers, are not permitted to rent or load the City-owned containers. The Service Department will confirm with the Building Department that the necessary permits have been pulled for containers rented to dispose of building materials.

DO NOT OVERLOAD:

Debris must be level with the top edge of the container. Containers that have debris piled over or stacked beyond the top edge of the container are not safe to travel with, and therefore will not be collected. In the event that a container is overloaded, the resident will be instructed to remove all excess materials before the container is collected from the property. In the event that a container is overloaded and no one is home to correct the situation, a Service Department employee will remove the excess materials and leave them on the property.

DO NOT MIX DIFFERENT TYPES OF MATERIALS:

Different types of materials, such as yard waste and construction debris, may not be mixed together in the same container, because they are delivered to different disposal sites. **In the event that materials are mixed together in the container, the resident will be billed for the dumping cost.**

ACCEPTABLE LOADS (DO NOT MIX; CHOOSE ONE OF THE FOLLOWING):

- **Household Items and/or Construction Debris** – appliances (all Freon must be removed), furniture, clothing, toys, cooking utensils, etc. Ideal for massive home clean-outs or move-outs. Drywall, tiles, linoleum, insulation, aluminum siding, paneling, windows, doors, roofing materials, etc. Construction debris from do-it-yourself projects only.
- **Yard Waste** – grass clippings, leaves, weeds, hedge trimmings, plants, mulch, straw, earth, sticks, twigs, and tree branches 9” and under diameter.
- **Small Trees** – branches, trunks and stumps 10” – 12” diameter.
- **Large Trees** – branches, trunks and stumps 12” and over diameter.
Note: Residents **are** permitted to mix yard waste with small and large trees; **however**, the cost of the container will be based on the largest diameter items, even if they are not the majority of the load.
- **Railroad Ties**
- **Stones** – rocks, bricks, cement, concrete, etc. (6-cubic yard container only.)

RESTRICTED ITEMS:

Household Hazardous Waste (HHW) such as oil-based paint, motor oil, fuel, gardening chemicals, pesticides, mercury, Freon, car batteries, etc. is restricted. Appliances containing Freon must have the chemical removed by a certified technician prior to being placed in the container. No tires.

PRICES:

- *Construction Debris and/or Household Items:*
 - \$135.00 for a 6-cubic yard container
 - \$160.00 for a 12-cubic yard container

- *Stone (6-yard only):*
 - \$70.00 for a 6-cubic yard container

- *Yard Debris:*
 - \$70.00 for a 6-cubic yard container
 - \$100.00 for a 12-cubic yard container

- *Small Trees (10" – 12" diameter):*
 - \$70.00 for a 6-cubic yard container
 - \$120.00 for a 12-cubic yard container

- *Large Trees (12" and over):*
 - \$140.00 for a 6-cubic yard container
 - \$270.00 for a 12-cubic yard container

- *Railroad Ties:*
 - \$110.00 for a 6-cubic yard container
 - \$220.00 for a 12-cubic yard container
